

# Internetstiftelsens Federationer

## Wiki language

The primary language used in this wiki is English, aiming to provide clear and comprehensible technical documentation for non-Swedish readers and to minimize translation errors in technical terms. However, certain pages may be authored in Swedish when the target audience is specifically from Sweden.

## Introduction

Welcome to the technical wiki for the federation services provided by Internetstiftelsen (The Swedish Internet Foundation). This wiki provides current information regarding federation environments, metadata, how-to guides, upcoming changes and other technical activities regarding the federations.
