

Skolfederation service provider list of requested attributes

Below you can find the SAML attributes that each service provider in Skolfederation request for their services. The SAML attributes declared are part of the Skolfederation [Attribute Profile](#).

Please note that the information on this page is updated at the respective service provider's discretion. Internetstiftelsen does not guarantee the content being correct. If you have questions regarding a service declared attributes, please contact the service provider directly.

If you are a service provider and find an error in the below declaration, please contact info@skolfederation.se for correction.
